

Quarterly magazine curated by and for the Kyle of Sutherland children

P1-P3 Outdoor Maths in Rosehall Primary

Working together, Bonar Bridge Primary

Back to school!

Kyle of Sutherland schools' pupils are back together after a very long break.

P1-P3 class, Gledfield

Gledfield Primary #backtoschoolthoughts

P4-P7 class

Mr Bews: Wonderful to see all the children back together (socially distancing, of course!). It's clear they've missed their friends and the daily routines of school - and maybe the teachers too!

Kyle: I've met some new people since we got back to school

Rebekah: I like seeing all my friends again since lockdown because I can work and play with them

Max: It's fun being back to school because I can see my friends after lockdown

Grace: It is a bit strange washing my hands a lot

but fun to see my friends again

Dylan: Some bits of lockdown were OK. Some bits of school are OK.

Shea: It's good to be back to school again to see my friends

Jasmine: I'm new, and so far my experience of Gledfield has been amazing!

Angus: I liked being at home during lockdown because of lambing and my dog

Magnus: I like it because everyone is different and we can discuss things

Amelie: I love to be back at school and I love to see my friends

Kieran: I like seeing my friends again because I

have been in lockdown for four months!

Innis: I love school but my favourite activity is playing with my friends

Dallas: It's good to be back at school because I love my friends and maths too

Maddie: I get to see my friends again but I did miss them during lockdown.

Zentangle art work #mindfulness

Bonar Bridge Primary

The Spiked Snake
 The spiked snake slithers slimy /
 His spikes are sharper than a spear /
 His eyes are beady like a rat /
 His tongue is forked like a road.

Harrison, P6

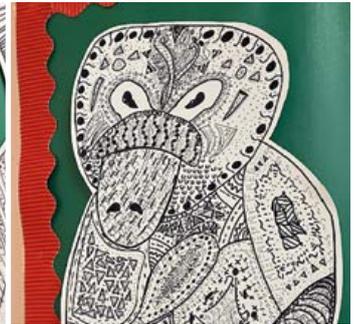

The Hedgehog
 The hedgehog sleeps /
 Spikes like needles /
 Eyes black like the black hole /
 Dens like caves.

Lee, P6

The Giraffe
 The giraffe Georgie helps out because of her long majestic neck./
 She has beautiful bold eyes and runs like the wind./
 She helps out other animals by getting them food from the highest trees and her friends like to chill and nap on her back./
 She is marvellous.

Marie, P7

The Delightful Duck-Billed Platypus
 The Delightful duck-billed platypus floats idly by, upon the murky water. /
 He ponders his thoughts as he sits alone. /
 His smooth bill gently scoops up algae that has cloaked a rock. /
 His webbed feet break through the water as he emerges to the surface. /
 The delightful duck-billed platypus is magnificent.

Rori, P7
