During lockdown, learning activities have been based around the three main areas of the curriculum - Literacy, Numeracy and Health and Wellbeing. Children have missed their usual social activities so the

wintery weather gave everyone an ideal opportunity to get outside and have some fun. Sharing the photographs among the class allowed us to see all the creative ways our school friends played in the snow.

#P1P2P3backatschool

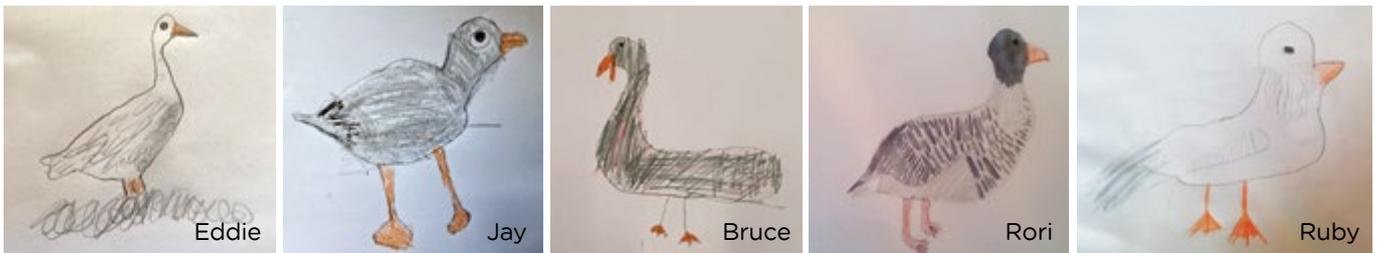

On 22nd February, P1-P3 class pupils were very happy to be back in school and the main reason is they get to see their friends and play with them again.

At our last issue we wrongly attributed the Polytunnel project to the Kyle of Sutherland Development Trust. It is a Planet Sutherland project funded by the Anne Duchess of Westminster's Charity.

Bonar Bridge Primary

The P2-7 pupils were delighted to still receive weekly art lessons from their art teacher Mr Westacott during lockdown. Mr Westacott set them the task of researching and drawing the well known Grelag Goose. The children looked at examples from Egyptian Wall Tomb paintings and also a print created by Thomas Bewick (see below).

It was Sophia Vass' first week at nursery

Theo Warburton outdoor writing.

Our Early Years Class (Nursery and P1) have been so happy to be back at school in February. Luckily the weather has been on our side so we've been outside playing lots and enjoying exploring the toys inside our classroom too. The children have been showing great cooperation skills and getting along well together. They received a Superstar certificate at the school assembly for showing kindness and consideration to each other on their return to school and nursery this week. (Right) Lots of nursery children trying out their new red, outdoor, water-proof suits in a big muddy puddle near the golf course.
